Nursery Stock

Being purely BROKERS our sole interest is to secure for you the best grades of stock at the most advantageous prices and to find a market for your surpluses. We list the stock only of those growers who include in their published prices our brokerage. In many cases, however, we can name lower prices as growers desiring to move their stock give us confidential prices to be named only upon application.

Nurserymen are invited to use these columns freely. Our brokerage is charged to the seller; buyers are under no expense. Stock purchased through this department is shipped and billed by the grower in his own name, direct to buyer. Our brokerage is earned upon perfecting sales contract acceptable to buyer and seller.

We endeavor to follow "Standardized Plant Names" and the Standards of the American Association of Nurserymen. Observation of these simplifications will insure prompter service.

WE HAVE BUYERS for the following Nursery Stock in various sizes and ages. If you can offer at attractive prices, do so at once, giving common and horticultural name, age, size and description of stock and price, including our brokerage.
